## DIRECT SPECIALTY REFERRAL

**Purpose:** The purpose of the expansion of the direct specialty referral for **VCHCP** members is to facilitate member referrals from contracted providers to contracted specialists for consultation, follow up visits and subsequent in office and non-in office procedures and diagnostic testing. A specific referral process and referral form has been developed and provided to primary care providers for use in making direct referrals.

**Policy:** The direct specialty referral allows contracted Primary Care Physicians to directly refer members to certain contracted specialty providers for an initial consult and appropriate follow up visits without requiring a Treatment Authorization Request (TAR) submission and prior authorization from the Health Plan. Additionally, specialists can perform certain procedures during the initial consultation and follow up visits without prior authorization from the Health Plan. Previously, requests for additional visits beyond two (2) follow up visits either from the Primary Care Physician or from the Specialist required prior authorization. However, now, any follow up visits will not require prior authorization as long as the member has seen the specialist within a rolling year and the visit is for the original problem. If the member has not seen the specialist for a year, or if the member requires a consultation for a new problem, a new direct specialty referral form will be required from the primary care physician. Any associated procedures not listed below will continue to require prior authorization as they did previously.

In addition, urgent care and Emergency Room (ER) physicians may now directly refer members to Orthopedics and Cardiology specialty for urgently required consultation.

Neurologists can directly refer to VCMC Pain Management Specialists, Physiatrists [Physical Medicine and Rehabilitation Specialist (PM&R)] and Orthopedics. VCMC Pain Management Specialists and Physiatrists (PM&R) can directly refer to Orthopedics. VCMC Pain Management Specialists and Physiatrists (PM&R) can refer back and forth based on the type of referral and access.

Neurosurgery can directly refer to VCMC Pain Management Specialists, Physiatrists [Physical Medicine and Rehabilitation Specialist (PM&R), Neurology and Orthopedics. VCMC Pain Management Specialists, Physiatrists (PM&R), Neurology and Orthopedics can refer back and forth based on the type of referral and access.

Utilization Management Policy: Direct Specialty Referral

Effective: 1/1/2011, 2/2012; 6/2012

02/11/15; 02/11/16; 5/12/16; 8/11/16; 2/9/17; 8/10/17;  
2/8/18; 2/16/18; 2/23/18; 2/28/18; 5/10/18; 8/9/18; 11/8/18;  
1/3/19; 11/12/19; 2/13/20; 5/14/20, 2/11/21, 2/17/22

VCMC Pain Management Specialists and VCMC Physical Medicine and Rehabilitation Specialist (PM&R) can directly refer members for pain management injections to Santa Paula Hospital Interventional Radiology.

Physical therapy and occupational therapy will be allowed a direct referral for an initial evaluation and an additional seven (7) visits up to a total of eight (8) visits.

In addition, nutritional counseling may be directly referred.

In addition to primary care physicians, direct referral for physical therapy can be made by the following specialists: Orthopedics, Rheumatology, Neurosurgery, Neurology, Podiatry, Physiatry (physical medicine and rehabilitation) and VCMC Pain Management. Once the Health Plan authorizes a Hand/Plastic Surgery specialist to see a VCHCP member, the Hand/Plastic Surgery Specialist may directly refer the member to physical therapy and to occupational therapy.

**Background:** Previously all requests for initial consultation and two (2) follow up visits with all specialty providers including all the procedures performed by the specialists during these said visits as well as additional follow up office visits, required prior authorization from the Health Plan.

**Procedure:** All VCHCP contracted specialists can be directly referred by PCPs using the direct referral form [EXCLUDING TERTIARY REFERRALS, (e.g. UCLA AND CHLA), PERINATOLOGY and OFFICE PROCEDURES FOR NON VCMC PAIN MANAGEMENT SPECIALISTS]. Referrals to Physical Therapy and Occupational Therapy also use this form. In addition, referrals to nutritional counseling also use this form.

Note that this policy does not apply to any tertiary care or non-contracted provider referrals. All tertiary care referrals and referrals to non-contracted providers continue to require approval by the Health Plan through the TAR procedure.

The Plan's primary care providers have been provided a two (2) part referral authorization form. The referring provider or office completes the form. Part 1 is given to the member to be taken to the specialist or treatment facility when the member presents for the first visit. Part 2 is maintained by the primary care provider. The Primary

The Primary Care Providers were informed about the Ventura County Medical Center (VCMC) Referral Center Process. Many specialists on the panel of the Plan are specialists in the Ventura County Medical Center (VCMC) medical clinics and affiliated clinics. New appointments for these specialists are made through the VCMC Referral Center. These specialties are Audiology, Cardiology, Dermatology, Endocrinology, ENT, Hepatitis C, Infectious Disease, Nephrology, Neurology, Neurosurgery, Pain Management, PMR, Pediatric Neurology, Podiatry, Pulmonology and Rheumatology. For a referral to any of the VCMC physicians in these specialties, the direct referral form should be sent to the VCMC Referral Office via fax or e-Referral system. The fax number is 805-677-5263.

Below is the list of Specialties and providers handled by the VCMC Referral Center:

| Cardiology      | Dermatology           | Endocrinology | Gaspro/GI Positive Fit |
|-----------------|-----------------------|---------------|------------------------|
| Dr. Abdi-Moradi | Dr. Chambers          | Dr. Ahl       | Dr. P. Sanchez         |
